

## SUMMER SCHOOLS IN THE U.S. – Summer 2025

The following summer school programs fall into four types: Boarding School, University, Independent, and Highly Selective. Open to both U.S. and international students, these programs offer dormitory living, classes, and activities. They vary in length, location, and cost, with many focused on academics. This is not a comprehensive list but features the programs most popular among our students in recent years. Students should research carefully to find the best fit.

**Most applications are reviewed on a rolling basis, so applying early is essential to secure your spot and ensure placement in your preferred course.**

### UNIVERSITY-RUN PROGRAMS

These programs are hosted on the campuses of their respective universities, with classes typically taught by university professors. Some programs also offer the opportunity to earn college credit.
